

9th Annual Scientific Meeting | 10 October 2020 | Cape Town

Sponsorship & Exhibition Opportunities

The Breast Interest Group of Southern Africa (BIGOSA) was formed in 2011 by a group of medical professionals who realised there was a need for standardisation in breast health care in Southern Africa. The objective of BIGOSA is to enhance the quality breast health care in Southern Africa. It delivers on this objective by:

- ✓ Encouraging a multi-disciplinary approach to breast care within general surgery, plastic and reconstructive surgery, pathology, oncology, radiology and allied health workers.
- ✓ Advising governmental and non-governmental organisations on breast health matters and policy.
- ✓ Liaising with other organisations in the field on a national and global level.
- ✓ Advancing the interests of its members.

One way of delivering on our primary objectives is to empower all practitioners with appropriate skills through training and scientific meetings where breast healthcare progress and problems of interest to all clinicians and non-clinicians are presented. For the 2020 edition, we will encourage robust debate through engaging presentations and panel discussions, hosted by renowned industry thought leaders addressing a range of themes and topics, such as:

- ✓ Pathology
- ✓ MRI
- ✓ Case Studies
- ✓ Management of side effects
- ✓ PRO – Patient-reported outcome
