

2021 SCIENTIFIC MEETING | VIRTUAL | 16 OCTOBER

SPONSORSHIP & EXHIBITION OPPORTUNITIES

The Breast Interest Group of Southern Africa (BIGOSA) was formed in 2011 by a group of medical professionals who realised there was a need for standardisation in breast health care in Southern Africa. The objective of BIGOSA is to enhance the quality of breast health care in Southern Africa.

This year the 9th Annual Scientific Meeting will take place for the first time ever on a virtual platform.

We are committed to the value of connecting and learning as a profession, and although we can't meet in person right now, we can still gather together in a virtual space to continue learning, growing, and contributing to South Africa's recovery.

We can't replicate the in-person, but we can maximise the virtues of technology to ensure we can continue to learn and grow together.

Advantages of sponsoring a virtual meeting:

- **Wider reach:** Easier access for a greater number of virtual attendees
- **Longer lasting:** Content remains available on demand for 6 months
- **Interactive:** Make connections, message directly or chat social media style, book meetings, share digital literature
- **Cost effective:** Well-priced packages, save on travel, accommodation, and shipping
- **Encouragement:** Powerful marketing and promotion of your sponsorship will raise brand awareness and offer you support as we encourage attendees to interact with you

Challenging times present opportunities to explore new methods of engagement, product placement, education about your brand, and lead generation. We will work with you to ensure a ROI and experience that exceeds your expectations. Meetings of this nature will not be possible without the collaboration of the trade. We trust we can count yet again on your generous support to facilitate a successful BIGOSA meeting in 2021.
