

Challenges in breast cancer management:
the value of a multidisciplinary approach

Sponsorship & Exhibition
Opportunities

28-29 November 2025, Southern Sun Elangeni & Maharani, Durban

A letter from *BIGOSA's LOC Chair*

Dear Sponsors and Exhibitors,

Durban is the host city of the annual BIGOSA meeting this year. The Local Organising Committee has drafted a compelling programme around the theme *“Challenges in breast cancer management: the value of a multidisciplinary approach”* for the meeting on the 28th – 29th November 2025.

All the invited local speakers are experienced clinicians involved in multidisciplinary breast care within South Africa.

We are particularly excited at the prospect of welcoming one of the world's top breast surgeons to our meeting. Professor Krishna Clough from the Paris Breast

Institute in France will be the keynote speaker this year. Professor Clough conceptualised oncoplastic breast surgery and published on the topic long before the name was coined.

Meetings of this magnitude and calibre require the participation of our corporate partners. Therefore, I invite you to consider collaborating with us in a partnership that will be mutually beneficial.

Your sponsorship will contribute towards our shared goals of promoting excellence in breast healthcare, fostering collaboration, and driving innovation in the field. Furthermore, your participation will align your brand with a cause that touches the lives of countless individuals. In addition, it will ensure significant visibility and recognition among key stakeholders in breast health. I believe this is a unique opportunity for you to contribute to a worthy cause and make a lasting impact.

*Thank you for considering this appeal. I look forward to collaborating with you to make the 2025
BIGOSA Scientific Meeting in Durban a success.*

Warm regards,
Ines Buccimazza
Chairperson: LOC
BIGOSA 2025

About BIGOSA

and our annual scientific meeting

The Breast Interest Group of Southern Africa (BIGOSA) is a multidisciplinary society, founded in November 2011 by medical professionals. Our primary objective is to improve the quality of breast healthcare in Southern Africa through education and training.

We deliver on our primary objective by empowering practitioners with the appropriate skills through training

and scientific meetings where breast healthcare progress and problems of interest to clinicians and non-clinicians are presented.

Our 13th Annual Scientific Meeting will take place at the Southern Sun Elangeni & Maharani in Durban on Saturday, 29 November 2025. It will be preceded by the Ultrasound Workshops as well as the Networking Reception and Exhibition Opening on Friday, 28 November.

► **The primary objective of BIGOSA is to improve the quality of breast healthcare in Southern Africa. In addition to our education and training initiatives, we deliver on our objective by:**

Encouraging a multidisciplinary approach to breast care within general surgery, plastic and reconstructive surgery, pathology, oncology, and radiology, and among allied health workers

Advising governmental and non-governmental organisations on breast healthcare matters and policy

Liaising with other organisations in the field, nationally and globally

Advancing the interests of our members through advocacy
